

Harnett Health

Information for Junior Volunteer Applicants and Parents /Guardians:

Our Junior Volunteer Program allows students of ages 15-18 to contribute in meaningful ways to the patients and staff of Harnett Health while learning about healthcare, volunteerism, and good work habits.

For the safety of our Junior Volunteers, those entering the program must receive the covid vaccine in order to volunteer in patient care areas within our facilities. Harnett Health will offer the vaccine to those selected to enter the program with the consent of a parent/guardian. Documentation will be needed if the vaccine is received elsewhere.

Each applicant must submit the following items to be considered for our program:

- **Junior Volunteer Application**
- **300 Word Essay**
- **2 Teacher Recommendation Forms**
Homeschooled applicants may submit two letters of recommendation from two adults (non-relatives) over the age of 21.
- **Track Selection Form**

All applications must be received by Friday, May 7th- there will be **No Exceptions!**

All applicants will receive a letter notifying them of their acceptance once applications have been reviewed by our committee. Due to space limitations of our program, not all applicants will be selected. Those selected will be required to attend a meeting with Volunteer Services to complete required paperwork, health assessment, and orientation.

We highly appreciate your interest in the Junior Volunteer Program at Harnett Health. I will be happy to assist if you have any questions or concerns.

Sincerely,

Amanda Faircloth, Coordinator
