

## **Flu, RSV, prompts Cape Fear Valley to raise age requirement for visitation in some units**

**DUNN, N.C. – Nov. 17, 2022** – Starting today, Betsy Johnson Hospital will temporarily limit visitors under the age of 16 to certain units, due to the increased number of respiratory syncytial virus (RSV) and flu cases in our community. Visitors under the age of 16, with the exception of parents of patients, are currently not allowed in Betsy Johnson Hospital’s Labor and Delivery, Nursery, Post-Partum or Pediatric units. Other areas of the hospitals, including Central Harnett Hospital, remain open for visitors aged 12 and older who are with a parent or guardian.
